

RENAN MACÊDO

GAME DEVELOPER · GAME DESIGNER · GAMEPLAY PROGRAMMER

Game systems · RPGs · Unity / Unreal · Mobile Games | Jacareí, São Paulo, Brazil

[Portfolio](#) [LinkedIn](#) [GitHub](#) [ArtStation](#)

PROFILE

Game Developer and Game Designer with 10+ years of software development experience, with a strong focus on games, RPG systems, gameplay and product development. I enjoy taking ideas from game design through implementation and launch, and I have built both original games and products for real players. Creator of Character Craft 5.5e (20K+ downloads) and currently launching Pulse Hero, a Fitness RPG.

WHAT I BRING

- Game development: Unity, Unreal Engine, C#, gameplay programming, game systems, RPG systems and UI/UX.
- Game design: progression, player experience, mechanics, gamification, turn-based systems and product thinking.
- End-to-end development: prototyping, implementation, integration, publishing, iteration and live-product maintenance.
- Cross-platform development: Flutter and Dart, useful for mobile games, companion apps and game-adjacent products.

SELECTED IMPACT

- 20K+ downloads - Character Craft 5.5e
- 110K+ downloads - NTPlay, the official TV and radio app of Rede Novo Tempo's South American network
- 60K+ monthly active users - Radio NT
- 10+ years building software, games and interactive products
- Technical articles published by 80 Level

PROFESSIONAL EXPERIENCE

REDE NOVO TEMPO DE COMUNICAÇÃO

Game Developer / Game Designer / Flutter Developer / Software Developer

Brazil · Mar 2018 - Present

- Developed games and interactive applications, contributing to game design, gameplay programming, UI/UX, production coordination and launch support.
- Worked across game development and software products, including the official NTPlay streaming app and Radio NT.
- NTPlay reached 110K+ downloads before being discontinued; Radio NT reached 60K+ monthly active users.

CODEBUDDY

Developer, Game Development Teacher & Educational Content Creator

Brazil · 2016 - 2018

- Taught programming, game development, game design, app development, robotics and gamification.
- Created educational and gamified learning content.

FREELANCE / INDEPENDENT DEVELOPMENT

Game Developer / Mobile Developer

Independent projects · Brazil

- Developed independent and client projects across games, mobile applications and gamified experiences.
- Selected work includes GameBuddys for CodeBuddy, an educational game for Sistema FIEMG, Des-Ligados for Datte, and a gamified solution for Orange Class.

SELECTED GAME PROJECTS

PULSE HERO

Fitness RPG · Current launch

Mobile RPG that turns real-world fitness into character progression, combining progression systems, combat and gamification. Current focus: game design, systems, Flutter development and product launch.

CHARACTER CRAFT 5.5E

20K+ downloads · RPG companion

Cross-platform RPG companion built with Flutter. Designed RPG data systems and online game rooms, working with WebSockets, Firebase, authentication, notifications, premium features and publishing.

A JORNADA

Game Design · Gameplay · Released project

Turn-based puzzle game inspired by Lara Croft GO. Worked on game design, gameplay systems, grid movement, player experience, environmental interactions, UI/UX, production coordination and launch support. The project has since been discontinued, but remains one of my proudest game projects.

PROCEDURAL GENERATION

Unreal Engine

Procedural content workflows including a medieval village generator and UE5 PCG experiments, documented through technical articles.

PUBLICATIONS

[Procedural Medieval Village Generator Set-up in UE5](#)

[Experimenting with UE5.2's Procedural Content Generation Framework](#)

EDUCATION & LANGUAGES

Technology Degree in Digital Games

Universidade FUMEC · 2013 - 2016

Portuguese - Native | English - Advanced

RENAN MACÊDO

GAME DEVELOPMENT · TECHNICAL BACKGROUND

Selected technical details for game-focused applications

[Portfolio](#) [LinkedIn](#) [GitHub](#) [ArtStation](#)

GAME DEVELOPMENT SKILLS

Gameplay & Game Design

Unity, Unreal Engine, C#, gameplay programming, game systems, RPG systems, progression, gamification, UI/UX, player experience

Multiplayer & Real-Time

WebSockets, multiplayer architecture, dedicated-server systems, synchronization, real-time data

Content & Tools

Unreal Engine PCG, procedural generation, Blender, Git, Aximmetry, motion capture

Product & Mobile

Flutter, Dart, Firebase, REST APIs, JSON, authentication, notifications, Android, iOS, macOS and Windows

ADDITIONAL PROFESSIONAL CONTEXT

- Virtual Production and real-time interactive experience work using Unreal Engine and related production workflows.
- Experience collaborating across development, game design, visual production and product requirements.
- Comfortable working independently on prototypes as well as collaborating with multidisciplinary teams.
